FEATURED DATA EXPERT

Simone Paci
PhD, Political Science
Princeton University

Simone Paci is a Postdoctoral Research Associate at the Bobst Center for Peace and Justice at Princeton University, with a Ph.D. in Political Science from Columbia University. His research focuses on the comparative and subnational political economy, utilizing quantitative data analysis to explore public opinion, political behavior, and the dynamics of public policy.   Key areas of inquiry include taxation policies, the fiscal contract, and interactions between subnational policymakers and local communities. Additionally, Simone's teaching spans European politics, public policy, the politics of redistribution, quantitative methods, statistical coding, and research design.
